KEY: <fm> - **Type** abbreviations, numbers or words in red

[No Onions] - **Tap** menu items in red

[Grp] - **Tap** buttons in blue

Benefit / Feature	Menu Item
<p>Reduce Errors & Cut Labor Costs by eliminating the need to process an order twice: by hand at tableside and then again at a POS station.</p>	<p>Pina Colada <pc> → [Pina Colada] Type any menu abbreviation and select any item in the Selection Window by tapping it and eliminate double entry at POS Station.</p>
<p>Increase the Average Check with up-selling prompts.</p>	<p>Bloody Mary <bm> → [Bloody Mary] Type the menu abbreviation <bm> and select the [Bloody Mary] in the Selection Window to see forced modifiers that up-sell call brand vodkas.</p>
<p>Improve Service by helping servers answer questions like "What kinds of beer do you have?".</p>	<p>[Grp] Button → Beer Group → [Bottled Beers] Tap the [Grp] button, type , then tap [Bottled Beers] to see and scroll through a list of all the beers on the menu. Tap one to add it to the order.</p>
<p>Increase the Average Check by sending drinks to bar before taking the food order. This ensures drinks are served quickly and customers are ready for a 2nd round when food is served.</p>	<p>[Send] Button Tap the [Send] button after ordering drinks, then enter the table number <4> and the number of customers <2> before proceeding with the food order.</p>
<p>Improve Service by using Seat Numbers to keep up with conversational ordering.</p>	<p>Crab Dip <cd> → [Crab Dip] → [Seat 3] Type the menu abbreviation <cd>, tap [Crab Dip] in the Selection Window then select the appropriate seat [Seat 3] in the Selection Window.</p>
<p>Improve Service & Table Turns by preventing food prep delays and customer complaints due to 86'd items.</p>	<p>Fried Shrimp <fs> → [Fried Shrimp] Type the abbreviation for an item that's been 86'd and a warning immediately appears.</p>
<p>Improve Service with easy, accurate special instructions</p> <p>Option A allows servers to add pre-defined modifiers like "No Onions" or "Extra Cheese" to any item on the order and;</p> <p>Option B allows servers to freely type anything about any menu item and enter it as a special instruction.</p>	<p>Option A. [Mod] Button → No Onions <no> → [No Onions] Type any menu abbreviation, tap it to select then tap [Mod] button and type <no> to add a pre-defined modifier [No Onions] to add special instructions about the item just ordered.</p> <p>Option B. [Sp] Button → <With Sliced Radish> Type any menu abbreviation, tap it to select then tap the [Sp] Special Instructions button. Type any instruction, such as <With Sliced Radish> and tap [Done].</p>
<p>Reduce Errors & Prevent Comps with automatic prompts (forced modifiers) that ensure servers get all the information required to correctly prepare each dish.</p>	<p>Filet Mignon <fm> → [Filet Mignon] → [House Salad] Type <fm> and select the [Filet Mignon]. Then select cooking temperature [Medium] and [Tossed Salad] as a side dish along with a choice of dressing [Ranch].</p>
<p>Improve Service by using modifier replacement to keep up with conversational ordering and accommodate customers who change their mind.</p>	<p>[House Salad] replaced with [Baked Potato] Tap the [House Salad] in the Order Window to recall available side dishes to the Selection Window and select [Baked Potato] to replace salad.</p>
<p>Improve Service by typing a temporary note in the Order Window to keep up with conversational ordering when servers cannot recall the correct abbreviation.</p>	<p>Seezer Salad <ss> → [Pnd] Button Pending Item: If a server types the wrong abbreviation for Caesar Salad ("ss" instead of "cs"), the incorrect abbreviation can be temporarily listed in the Order Window by tapping the [Pnd] (pending) button (you may need to "flick" the Selection Window up to see the [Pnd] button). The server may correct this pending text after leaving the table by using the [Find] function below: Find: Tap the [ss] item in the Order Window to highlight it then tap the [Find] button in the Selection Window. Type <salad> then [Done] to view a list of all the items that contain the word "salad" and then tap to select [Caesar Salad].</p>
